The City of Glendale recently developed an On Call Consulting Services list to provide general engineering design and construction administration services. This list will be in effect for a two year period. The following fourteen (14) consultants have been selected, and at the inception of a qualifying project, the firms will be randomly selected to perform these services.

CONSULTANT NAME	PROJECT TYPE		
	General Civil	Water/Wastewater	Roadway
Brooks Strand Associates, Inc.	X	X	X
Brown & Caldwell	X	X	X
Civiltec Engineering, Inc.	X	X	X
Coe & Van Loo, L.L.C.	X	X	X
DEI Professional Services, L.L.C.	X	X	X
Dibble Engineering	X	X	X
KPFF Consulting Engineers	X		X
Ninyo & Moore	X	X	X
PBS&J	X	X	X
Premier Engineering Corp.	X	X	X
Project Engineering Consultants, LTD	X	X	X
Ritoch-Powell & Associates	X	X	X
Tetra Tech RTW		X	
Wood/Patel	X	X	X

- **General Civil Engineering** – This category includes site grading and drainage, SCADA, ITS fiber optic facilities (non tenant improvements), and site electrical. – storm drain hydraulic models, area drainage master studies, pavement management, large, and small area GIS/Mapping. Includes groundwater recharge with associated on-site conveyance systems, drainage issues, storm drain design, hydrology and hydraulic analysis for storm drains, flood plain mapping and water system modeling studies.

- **Water/Wastewater** - Includes projects related to waste water treatment plants, sanitary sewers lift stations and treated effluent pumping systems, as well as transmission and distribution systems, pumping, distribution, storage, and transmission for potable water.

- **Roadway** –This includes design of new signal installations, or modifications to existing signals as part of a street or intersection improvement projects. This would also include Right of Way acquisition and easement development, surveying, landscaping design, stripping and street lighting, median work and some street/roadway design.
