

AVIATION ADVISORY COMMISSION

Summary Minutes

August 12, 2009

At the Aviation Advisory Commission meeting of August 12, 2009, the following updates were discussed:

The Commission Chair, Mr. Dietzman requested an opportunity to discuss what the Commission and Commissioners roles and responsibilities are to the City and the Airport.

The Dust Abatement Process was discussed regarding the options of Cooperative Purchasing or Formal Request for bid or proposal and both options are coordinated through the City's Materials Management Department.

Airport Rules and Regulations were discussed and noted that the last revision was in 2004 and meetings have been held recently where stakeholders, tenants and interested persons were formed for the purposes of reviewing the rules and regulations.

Airport terminal leases, blast fence and the control tower renovation was discussed.
