

# GLENDALE GLITTERS *Fun* FACTS!

**5,400 Man Hours Total Project** – If a person walks 3.5 miles per hour, this would be the equivalent of walking from Phoenix to New York almost nine times.

**1.5 Million Lights** – If the light strings were connected end-to-end it would reach from Glendale to past Flagstaff. Over ½ of a semi truck full of lights.

**More than 1,000 children** will visit Jolly Ol' St. Nick at Glendale Glitters this holiday season.

**Tree Tops** - In the center of the Winter Wonderland stands a beautifully decorated Christmas tree that measures 30 feet tall – roughly the equivalent to 10 of Santa's elves.

**Carriage Rides** - One of Glitters' most popular traditions is the horse-drawn carriage rides. Seven stately Clydesdale horses, which each weigh between 1,700 and 2,000 pounds, steadily pull the seven carriages, as riders enjoy the beauty of the lights.

**20 tons of snow** will "fall" into the children's Winter Wonderland. That's enough snow to make 10,000 snow men, 50,000 snowballs or 100,000 real sno-cones!

**Milk and Cookies** - Did you know that Santa's favorite cookie is chocolate chip? And his drink of choice is, of course, good old-fashioned milk!
