GLENDALE FIRE STATION 151 HAS A NEW HOME

GLENDALE, Ariz. –Glendale Fire Station 151 is now located at 6851 N. 52nd Avenue, in Glendale. The modern 14,000 square foot dual company fire station has 10 bedrooms, a full kitchen, day room, conference room, work stations, and a gym. The move came after spending 40 years at the original fire station located on 55th and Orangewood Avenues.

It was determined in a ‘Needs Assessment’ by the Center for Public Safety Excellence (CPSE) that this move would improve emergency response times as well as facilitates the needs of the community and the modern Glendale Fire Department equipment such as fire trucks and other specialty vehicles. The Glendale Fire Department received its Accredited Agency status with the Commission on Fire Accreditation International, Inc. (CFAI) in 2002.

The old location is no longer a fire station although it is still a part of the Glendale Fire Department as it will be used for resource management. Customers are asked not to consider it a working fire station. Blood pressure checks will no longer be offered out of the old station.

A Grand Opening of new Glendale Fire Station 151 will be scheduled for some time in the fall.
