

Free resources for Glendale teachers – sign up now!

Watt Watchers Program

The Watt Watchers Program actively engages teachers, students, and their families in examining their use of energy and implementing proven technologies and behavior changes to reduce the consumption of energy, thereby reducing their carbon footprint.

Goals

- Provide teachers with energy lessons and materials aligned to the Arizona Academic Standards
- Provide free energy conserving devices for students to take home.
- Provide classroom discovery stations on the topic of energy for classroom teachers.
- Involve students in critical-thinking activities that will foster self-confidence and promote the love of science.

Enroll in the Watt Watchers Program

To enroll your classroom in the Watt Watchers program, please contact the Conservation and Sustainable Living Program at 623-930-3553 or email nschwab@glendaleaz.com

Eligible Schools

The Watt Watchers program is available to sixth grade teachers in public, private, and charter schools located in the city of Glendale.

Discovery Stations

Guest Presentations

During an interactive presentation on Solar Energy, students will observe the effects of the sun and the potential sustainable power that it can bring to our world.
