## Understanding Your Monthly Sewer Charges

You may notice a change in the monthly sewer fee in your water bill each May. For most customers, this fee does not change. For some, the fee may decrease and for some, the fee may increase. Every year the City of Glendale re-calculates customer's sewer usage based on their water use billed January – March. If you are aware of high water use during this period that may be due to a water leak or outside watering, you may be eligible for an adjustment of this fee. To seek an adjustment, you must file a Sewer Appeal with our Customer Service Department. The Sewer Appeal Form can be found on our website at <https://form.jotform.com/91425584176160>. Appeals are accepted for a 90 day period after the May billing.

**Examples of typical sewer appeals are of the following nature:**

- **Leaks** (January – March bills)
- **Filling a new pool or the draining and refilling an existing pool** (January – March bills)
- **Outdoor watering during the winter months typically associated with larger than normal landscaping** (this type of appeal is typically valid for three years)

New residents or customers who do not have a full three months' winter water usage, will be assigned usage based on the average of all customers with a similar type of property. Please call our Customer Service Office at 623-930-3190 with additional questions.

## How Veterinary Pathology Can Help Your Animals

Pathology and forensic science are hot topics in popular culture and media, but the world of pathology is so much more than what you see in a television drama. Veterinary pathologists at Midwestern University work to expand research on animal diseases, diagnose diseases in animal populations and contribute to new drug and treatment developments. Come to the Roadrunner Room at the Foothills Library on Monday, May 9, from 6:30 - 7:30 p.m., for an inside look at veterinary pathology and the contributions of veterinary pathologists to animal health.
