

# CLEAN & GREEN 2022

*Working together for a brighter future*

## GlendaleOne

YOUR ONE STOP FOR SERVICE

Receiving service from the city of Glendale is now as easy as 1-2-3!

- 1.** Simply go to [www.GlendaleOne.com](http://www.GlendaleOne.com) or download the GlendaleOne mobile app from the App Store or Google Play.
- 2.** Give us the location where service is needed, select the type of service needed, and opt-in for automatic updates or create an account (optional).
- 3.** Submit your request and receive a confirmation number that includes the expected turnaround time for the issue.

GlendaleOne is easy to use, increases accessibility to city services, and improves service delivery and communication city-wide.

**Key features include:** Automatic escalation to a supervisor if there is a delay, knowledge base of frequently asked questions, automatic location identification and map integration and the ability to include photos or other documents with your service request.

*Outstanding service is our priority, and GlendaleOne demonstrates our commitment to deliver excellence and innovation as we strive to make Glendale the community of choice for residents, businesses and employees.*

# HOUSEHOLD HAZARDOUS WASTE DISPOSAL

## Common household hazardous items include:

Antifreeze and automotive products, including car batteries, oil & filters • Flammables • Mercury • Oil-based paint  
Pesticides • Pool chemicals • Propane tanks • Paint, oil, gasoline, antifreeze & other automotive liquids (20-gallon limit)

## Spring & Fall Pick-ups

Many household products contain hazardous ingredients that can be harmful when used or discarded incorrectly. Glendale solid waste workers will come to you and make sure these items are properly disposed of.

## Options for Household Hazardous Waste Disposal Year-round

Many items received during household hazardous waste collection service are recyclable at local stores. Compact fluorescent bulbs (CFLs), lead-acid batteries (non-automotive), and NiCad and rechargeable batteries are all recycled as part of nationwide programs. Contact the store where the items were purchased or call the service desk of a local store to find out where you can drop off these items.

## Freon Notice

For appliances with Freon units such as refrigerators, freezers, water coolers, and window-mounted air conditioners, a \$15 fee will be added to your water bill (fee added for each Freon unit). This service requires a special pickup request which can be scheduled by calling 623-930-2660.

## Pick-up Process & Schedules:

Twice a year, residents may schedule appointments to have hazardous waste picked up. The process is as simple as 1, 2, 3!

1. During the appointment dates listed below, schedule a pickup and have a list ready of the items you have for disposal.
2. Place the items out for collection on the scheduled pickup day by 6 a.m.
3. The material is removed on your scheduled day and disposed of safely.

Mark your calendar for the dates listed below to be sure to clear your house of unwanted toxic and hazardous materials.

Call 623-930-2660 to make your appointment.  
[www.glendaleaz.com/householdhazardouswaste](http://www.glendaleaz.com/householdhazardouswaste)

## 2022 Household Hazardous Waste Schedule

### Spring

Appointments: February 21 – March 18  
Collections: March 14 – April 1

### Fall

Appointments: September 19 – October 14  
Collections: October 10 – October 28

# 2022 BULK TRASH PICKUP SCHEDULE

## Bulk Trash is Picking Up!

# RECYCLING IN GLENDALE, AZ

**ALUMINUM CANS:** beverage or energy drink cans

**CARDBOARD:** empty of all packing materials and broken down

**MIXED PAPER:** junk mail, catalogs, brown paper bags, shredded paper in a clear plastic bag

**NEWSPAPER:** including inserts

**ALL PLASTIC CONTAINERS THAT CARRY RECYCLING SYMBOLS 1 & 2:**

milk jugs, soda bottles, water bottles  
**No styrofoam, plastic bags, bubble wrap or plastic toys.**

**STEEL/TIN:** soup or vegetable cans

**Glendale Recycling**  
When in doubt, throw it out!

623-930-2660  
GlendaleAZ.com/Recycling

## Recyclables Need to be Clean, Dry and Empty.

After finishing with a recyclable item, rinse as necessary to remove any food. There is no need to remove caps or labels, but do remove non-recyclable items like plastic cereal box inserts. Cardboard needs to be empty of all packing materials and broken down.

All recyclables must be relatively clean, empty and dry. This does not mean putting them through a dishwasher. This is especially important during our current drought period. An example of relatively clean, empty and dry would be a mayonnaise jar that has been wiped clean of residue with a spatula or emptying a soda bottle in the sink. Both of those are clean and dry enough.

There are many polymers of plastic. The plastic industry uses a numbering system that you can find on the bottom of most plastic bottles and containers. Glendale recycles and accepts those with the symbol 1 and 2. Plastic that contains Styrofoam (cups, egg cartons, packing materials and containers) are not recycled in Glendale's recycling program. All of these do not have ready markets and are not economical to sort and recycle.

### ITEMS NOT ACCEPTED

- Carpeting and clothing
- Diapers
- Dog and cat food bags
- Drywall
- Fast food items - straws, cups and wrappers
- Furnace filters
- Glass (of any kind)
- Hangers - no metal or plastic (of any kind)
- Household garbage (such as paper plates, bathroom items, dog waste, paper towels and napkins)
- Landscaping (leaves, grass, tree limbs, dirt and rocks)
- Non-container plastic (examples are plastic spoons, forks or knives, PVC pipe, bubble wrap and motor oil containers)
- Plastic bags (except for shredded paper placed in a clear plastic bag)
- Scrap metal
- Shoes
- Styrofoam
- Tile
- Toys

recycling information

# RECICLANDO EN GLENDALE, AZ

**LATAS DE ALUMINIO:** latas de bebidas o de bebidas energéticas

**CARTÓN:** recortado y vacío de todo material de empaque

**PAPEL MIXTO:** correo inservible, catálogos, bolsas de papel estraza, papel triturado en bolsas de plástico transparente

**PERIÓDICO:** incluyendo los insertos

**TODOS LOS CONTENEDORES DE PLÁSTICO CON LOS SÍMBOLOS DE RECICLAJE 1 Y 2:**

botellones de leche, botellas de refrescos, botellas de agua  
**No se permite espuma de poliestireno, bolsas de plástico, envoltura de burbujas o juguetes de plástico.**

**ACERO/HOJALATA:** latas de sopa o de vegetales

**Reciclaje de Glendale**  
Si tiene duda, ¡tírelo a la basura!

623-930-2660  
GlendaleAZ.com/Recycling

## Los artículos reciclables deben estar limpios, secos y vacíos.

Después de terminar con un artículo reciclable, enjuáguelo como sea necesario para eliminar cualquier alimento restante. No tiene que remover las tapas o las etiquetas, pero sí debe remover los artículos que no sean reciclables tales como los insertos de plástico en las cajas de cereal. El cartón debe recortarse y estar vacío de todos los materiales de empaque.

Todos los materiales reciclables deben estar relativamente limpios, vacíos y secos. Esto no significa que debe lavarlos en la lavavajillas. Esto es especialmente importante durante nuestro período actual de sequía. Un ejemplo de artículos relativamente limpios, vacíos y secos sería un frasco de mayonesa al que se le han quitado los residuos con una espátula, o una botella de refresco que se haya vaciado completamente en el fregadero. Ambos artículos están limpios y lo suficientemente secos.

Hay muchos polímeros de plástico. La industria del plástico usa un sistema de numeración que se puede encontrar en la parte inferior de la mayoría de las botellas y de los recipientes de plástico. Glendale recicla y acepta aquellos con los símbolos 1 y 2. Los artículos de plástico que contienen espuma de poliestireno, tales como vasos, cajas de huevos, materiales de empaque y contenedores no se reciclan en el Programa de Reciclaje de Glendale. Todos éstos no cuentan con mercados listos y no es económico separarlos y reciclarlos.

### ARTÍCULOS QUE NO SON ACEPTADOS

- Alfombras y ropa
- Pañales
- Bolsas de comida para perros y gatos
- Tablarroca
- Artículos de comida rápida – popotes, vasos y envoltorios
- Filtros de la calefacción
- Vidrio (de cualquier tipo)
- Ganchos – que no sean de metal o de plástico
- Basura doméstica (como platos de papel, artículos de baño, desechos de perros, toallas de papel y servilletas)
- Desechos de jardinería (hojas, pasto, ramas de árboles, tierra y rocas)
- Plástico que no sea de contenedores (por ejemplo, cucharas, tenedores o cuchillos de plástico, tubos de PVC, envoltura de burbujas y contenedores de aceite de motor)
- Bolsas de plástico (excepto para el papel triturado que se coloque en una bolsa de plástico transparente)
- Metal chatarra
- Zapatos
- Espuma de poliestireno
- Azulejo
- Juguetes

# LANDSCAPE WATERING GUIDELINES

How Much & How Often Water to the outer edge of the plant's canopy and to the depth indicated. Watering frequency will vary depending on season, plant type, weather and soil.		Seasonal Frequency — Days Between Waterings				Water This Deeply (Typical Root Depth)
		Spring Mar - May	Summer May - Oct	Fall Oct - Dec	Winter Dec - Mar	
Trees	Desert adapted	14-30 days	7-21 days	14-30 days	30-60 days	24-36 inches
	High water use	7-12 days	7-10 days	7-12 days	14-30 days	24-36 inches
Shrubs	Desert adapted	14-30 days	7-21 days	14-30 days	30-45 days	18-24 inches
	High water use	7-10 days	5-7 days	7-10 days	10-14 days	18-24 inches
Groundcovers & Vines	Desert adapted	14-30 days	7-21 days	14-30 days	21-45 days	8-12 inches
	High water use	7-10 days	2-5 days	7-10 days	10-14 days	8-12 inches
Cacti and Succulents		21-45 days	14-30 days	21-45 days	if needed	8-12 inches
Annuals		3-7 days	2-5 days	3-7 days	5-10 days	8-12 inches
Warm Season Grass		4-14 days	3-6 days	6-21 days	15-30 days	6-10 inches
Cool Season Grass		3-7 days	none	3-10 days	7-14 days	6-10 inches

These guidelines are for established plants (1 year for shrubs, 3 years for trees). Additional water is needed for new plantings or unusually hot or dry weather. Less water is needed during cool or rainy weather. Drip run times are typically 2 hours or more for each watering.

## TOP THREE LANDSCAPE WATERING TIPS

**1. Adjust your irrigation timer/controller seasonally.** Plants have different watering requirements throughout the year. You don't want to drown or dehydrate your plants. Follow the Landscape Watering Guidelines.

**2. Water your plants deep and wide.** Remember the "1-2-3" rule for how deep to water your plants. Water groundcover, cacti, and annuals to the depth of 1 foot, shrubs to a depth of 2 feet, and trees to the depth of 3 feet. Water deeply, but infrequently to encourage deeper root growth and healthier plants.

**3. Inspect your irrigation system for leaks regularly.** Turn on each station (using your irrigation timer/controller) and walk your property looking for leaks in and around the different irrigation system components. Don't forget to check the valves, which are usually located in a plastic box, for leaks.

### Is the Garbage Container Lid Always Open on Service Day?

Each single-family residence is assigned one garbage container and one recycling container. Typically, half of most household waste is recyclable, and the need for extra garbage capacity can be minimized or eliminated by recycling. The Maricopa County Department of Public Health requires lids to be closed at all times to control insect and rodent infestation.

Overfilled containers also create a service issue as debris can spill onto the ground and could prevent receiving service. Additional refuse containers can be requested by the resident for an additional **\$6.67 per container per month**.

### If it Fits in the Bin, Toss it in!

The Bulk Trash Collection Program is for residents who pay for solid waste service. Help control service costs by utilizing your garbage container bin, because collection equipment is outfitted to collect bulky items. It takes staff longer to collect smaller items so **If it Fits in the Bin, Toss it in!**

For those occasions when you can't wait until your next scheduled collection day, you can take your items to the landfill for disposal. With your city utility water bill and driver's license to show you are a Glendale resident, you get up to a ton free once a month. ([www.glendaleaz.com/landfill](http://www.glendaleaz.com/landfill)). You can also call for a bulk trash special pickup for a fee of **\$99** for the first 30 minutes of collection.

Appliances with Freon units such as refrigerators, freezers, water coolers and window-mounted air conditioners can be collected for a **\$15** fee per unit that will be added to your water bill. This service requires a special pick up request and is scheduled only during your bulk trash service week. Call 623-930-2660 to schedule a pickup.

For home remodels or cleanup projects, the city of Glendale has all your roll-off container needs competitively priced for your residential projects. Various rates are charged depending on the size of the bin and the number of services per month. To order any of the additional services offered by the city of Glendale Solid Waste Department, please call 623-930-2660.

Bulk Trash Collection Crew

# Monthly Bulk Trash Service

Glendale provides bulk trash pickup for large items that **WILL NOT** fit in your residential garbage container. Unwanted furniture, appliances, tree limbs and brush from your property can be disposed of at this time.

**When:** Place bulk trash out no earlier than 6 a.m. on the Thursday before your scheduled service week and no later than 6 a.m. on the Monday of your scheduled service week. It is a violation of city ordinance to put bulk trash out before or after the assigned period. Residents who fail to follow guidelines will not receive bulk trash collection service until the following month and are required to remove their items from public view until the next scheduled service.

**Do's:**

- Place all bulk trash within 4 feet of the sidewalk edge toward your home.
- Stack items as neatly as possible, parallel to the street adjacent to your property line.
- No object placed out for collection shall exceed 4 feet in length, except bulk trash (for example, a couch).
- Keep glass separate from other items, in sturdy cardboard boxes. Boxes should be 2ft. x 2ft. x 2ft. or smaller, taped shut and clearly labeled "glass."
- Due to Freon, for refrigerator disposal there will be a \$15 fee added to your water bill per disposed refrigerator. Call 623-930-2660 to schedule a special pickup.

**Don'ts:**

- Do not put out any of the following items: soil, rock, gravel, concrete, shingles, bricks, blocks, drywall, tile, fiberglass, wet or dry mortar, sod, tree trunks, styrofoam, paint, oil, car batteries, pool chemicals or any other hazardous materials.

- Do not place bulk trash within 2 feet of city-owned containers, water meters, cable boxes, fire hydrants, block walls or other fixed objects.
- Tires must be taken to the Glendale Municipal Landfill.
- Do not pile bulk trash more than 6 feet high.
- Do not park vehicles within 10 feet of bulk trash piles.
- Do not put out styrofoam including packing materials and foam peanuts.

**Bulk trash service will not be provided if a possible health or safety risk or chance of equipment or property damage exists.**

## MLK Day of Service Saturday, January 15

Throughout his life, Dr. Martin Luther King Jr. advocated for peace, unity, and service. He was committed to creating change in his community, and so are the many volunteers here in Glendale. MLK Day of Service is an annual tribute to the life of Dr. King and a way to donate vitamin-rich citrus to families in need. It also helps beautify Sahuaro Ranch Park, a Glendale landmark, keeping this community perfect for living, working, and playing! Volunteers are needed to help glean fruit. Sign up today! [www.glendaleaz.com/CommunityVolunteerProgram](http://www.glendaleaz.com/CommunityVolunteerProgram)

Recycle Today for a Greener Tomorrow

## Glendale's 16th Annual Serve Day is February 19

Hundreds of volunteers are needed to complete various community service projects throughout Glendale. Participating in Glendale's Annual Serve Day is an opportunity to give back to the community and help those in need. Serve Day is now in its 16th year and an opportunity to address projects that would not be possible without volunteer support. Sign up today if you want to serve our community! [www.glendaleaz.com/CommunityVolunteerProgram](http://www.glendaleaz.com/CommunityVolunteerProgram)

## Recycle Right Wizard

### Right Stuff in the Right Bin

Contamination is a challenge all recycling programs battle daily. The digital tool, "Recycle Right Wizard," allows residents to search a long list of items that will provide information on proper disposal (refuse or recycle bin). The Recycle Right Wizard is aimed at reducing contamination, reducing call volumes and diverting recyclable materials from the landfill. Test your recycling knowledge by going to [www.glendaleaz.com/recycling](http://www.glendaleaz.com/recycling).

## Household Hazardous Waste Appointments!

### Call between February 21 & March 18

Collections run from March 14 to April 1. Check your shed and garage for unwanted hazardous items. Place items in a box marked "HHW" with everything clearly labeled in the original container. Schedule appointments at 623-930-2660. For more information, visit [www.glendaleaz.com/householdhazardouswaste](http://www.glendaleaz.com/householdhazardouswaste).

## Glendale Municipal Landfill

The city of Glendale Municipal Landfill is located at 11480 W. Glendale Avenue, on the north side of the road. The landfill is a responsible, progressive and an environmentally sound long-term solution to solid waste management, essential to the future health, welfare and prosperity of residents.

Solid Waste inspectors stay busy inspecting 90-gallon recycling containers placed out for service to decrease contamination in the recycling stream to keep processing fees as low as possible. If contamination is found, an inspector will leave educational materials. If the contamination is severe, a no service tag will be left explaining why service was not provided. An inspector also performs refuse container inspections looking for unbagged garbage and hazardous items such as paint, automotive oil and corrosive chemicals.

### Hours of Operation:

Monday – Friday: 7:30 a.m. - 4 p.m.

Saturday: 7 a.m. - 3 p.m.

Closed: Sundays & official city holidays

Saguaro Lake

## Glendale is Prepared for Drought!

The Southwestern United States, including Arizona, has been in a drought for more than 21 years. This has greatly impacted the Colorado River system including Lake Mead and Lake Powell. The Colorado River represents approximately 36% of Arizona's collective water supply. Considering Arizona's priority system, the city of Glendale's Colorado River supply will not be reduced in the immediate future.

Glendale has known for many years our Colorado River supplies could be cut and we have been preparing for this shortage for decades and will continue to do so. These preparations include:

- Securing a diverse and robust water portfolio that includes renewable surface water, groundwater, and reclaimed water supplies.
- Using reclaimed water to conserve potable water supplies.
- Decreased reliance on groundwater.
- Storing water underground for future use.
- Investing in infrastructure, including wells to pump groundwater when surface water supplies may be reduced.
- Supporting water conservation through ordinances and codes, developing conservation-based water rates and offering an effective Water Conservation Program for people of all ages.

While Glendale has a safe, secure, and reliable water supply now, we all need to continue to do our part to use water wisely. We know that water is precious in the desert and that every drop counts. Water conservation makes sense in the Desert Southwest! More information at [www.glendaleaz.com/drought](http://www.glendaleaz.com/drought).

## What's in Your Water?

Water is a vital resource for our desert community, and the quality of your drinking water is very important to us. The Glendale Water Services Department tests, analyzes, and monitors water quality many times each day to ensure that the water provided is clean and safe to use. To learn more about your drinking water quality, visit [www.glendaleazwater.com](http://www.glendaleazwater.com).

## Value in Every Drop

The Glendale Water Services Department provides essential services that protect public health and the environment. Every day, staff deliver high-quality, reliable, and affordable drinking water. The average single-family residence in Glendale uses 9,000 gallons of water and generates 6,800 gallons of wastewater each month. The City can provide water and wastewater services to residential customers for approximately \$2 per day.

Wildflower Blooms at Bartlett Lake

## Water Awareness Month

April is Water Awareness Month, but desert dwellers know the importance of being water conscious every day. Make a difference and celebrate the importance of Arizona's water resources and ecosystems. Did you know the average resident in Glendale uses about 106 gallons of water per person per day? Understand your current water use to achieve greater efficiency by using the residential water use calculator at [www.amwua.org/water-use-calculator](http://www.amwua.org/water-use-calculator). Glendale residents who complete the water use calculator will receive a free water conservation kit. Limit one kit per household. For more information, visit [www.glendaleaz.com/waterconservation](http://www.glendaleaz.com/waterconservation) or 623-930-3535.

## Save Money Galore & Conserve Outdoors

- Attend a Green Living class to improve your home's water and energy efficiency.
- Visit the award-winning Glendale Xeriscape Demonstration Garden for inspiration.
- Choose plants that are desert-friendly or native to Arizona.
- Group plants with similar water needs together.
- Water your landscape before sunrise to minimize evaporation.
- Regularly run your irrigation system and look for misaligned sprinkler heads, missing drip emitters, and broken valves and pipes.

More info at [www.glendaleaz.com/waterconservation](http://www.glendaleaz.com/waterconservation).

## Report Water Waste

Water is a precious resource and it's important to use it wisely. If you observe landscape-related water waste, please take a photo and report it at [www.GlendaleOne.com](http://www.GlendaleOne.com) or call 623-930-3535.

## Active Transportation Investments

Active transportation involves any human-powered mode of transportation that engages people. Traditionally focused on bicycling and walking, active transportation also includes running, skateboarding, inline skating, and the use of assistive mobility devices. It represents an important component to the overall mobility of a community by providing a low-cost and accessible form of transportation. Active transportation also assists in creating a more livable and sustainable community by replacing trips that typically use fossil fuel. Replacing automobile trips with walking and biking trips can reduce automobile-related emissions, noise pollution, and water pollution. Several projects are in various phases of development to construct missing sidewalk segments and add or upgrade on-street bicycling facilities.

## Microtransit

The second Microtransit pilot project is planned to be launched in early/mid 2022. Once in service, you'll be able to schedule a ride on your smartphone, much like Uber and Lyft, but ride with transit professionals you know. The service area for this pilot will include all of Glendale.

Visit [www.glendaleaz.com/transportation](http://www.glendaleaz.com/transportation) for updates and details.

## Garden for Wildlife Month

Everyone needs a home, even wildlife. A habitat is a home that provides the four basic elements needed for wildlife to survive and thrive: food, water, shelter, and space to raise offspring. No matter the size of your yard, you can welcome wildlife by making it an inviting space.

- Choose native plants that provide foliage, nectar, pollen, fruits, and seeds.
- Provide fresh water and clean it regularly.
- Allow plants to grow into their natural form, don't shear or over prune.
- Keep nesting materials in your landscape, such as leaves and twigs.
- Avoid harmful chemicals like herbicides and pesticides.
- Certify your habitat with the National Wildlife Federation – [www.nwf.org/certify](http://www.nwf.org/certify).

Read online or request a mailed copy of "Welcome Wildlife to Your Garden." For more information, visit [www.glendaleaz.com/waterconservation](http://www.glendaleaz.com/waterconservation).

## Understanding Your Monthly Sewer Charges

You may notice a change in the monthly sewer fee in your water bill each May. For most customers, this fee does not change. For some, the fee may decrease or increase. Every year the city of Glendale recalculates each customer's sewer usage based on their water use billed January – March. If you are aware of high water use between January and March, you may be eligible for a fee adjustment and must submit a Sewer Appeal form. Access the form at [www.glendaleaz.com](http://www.glendaleaz.com) and type "Sewer Appeal" in the Search Function. Appeals are accepted up to 90 days after the May billing.

### Examples of typical sewer appeals:

- Leaks (January – March bills)
- Filling a new pool or draining and refilling an existing pool (January – March bills)
- Outdoor watering during the winter months, typically associated with larger than normal landscaping

New residents or customers who do not have a full 3 months' winter water usage, will be assigned usage based on the average of all customers with a similar type of property. For more information, call 623-930-3190.

## Journey to the Xeriscape Garden

A community treasure, the Glendale Xeriscape Demonstration Garden is a living showcase of the diversity and abundance of water-wise plants. The garden is certified as a Wildlife Habitat and Monarch Waystation and is home to hummingbirds, butterflies, bees, and lizards. Meander through the garden's themed areas, including the new Succulent Space, to experience the beauty and diversity of desert-friendly landscapes. This award-winning garden is free to visit and open to the public from dawn to dusk. For more information, visit [www.glendaleaz.com/xeriscapegarden](http://www.glendaleaz.com/xeriscapegarden).

Be Monsoon Ready!

## Be Monsoon Ready!

The monsoon season officially runs from June 15 to September 30 as established by the National Weather Service.

Polluted stormwater runoff is the nation's greatest threat to clean water. When it rains, stormwater flows over driveways, sidewalks, streets, and parking lots, where it picks up pollutants, such as trash, oil, vehicle brake dust, fertilizers, pesticides, and pet waste. These pollutants are transported to our rivers, washes, retention areas, and parks where they can have adverse effects on the environment and people.

### What YOU can do to protect our local waterways:

- Clean rain gutters and direct downspouts away from paved surfaces.
- Sweep debris off driveways, sidewalks, and patios and dispose of it in the trash can.
- Pick up pet waste and dispose of it in the trash can.
- Minimize the use of pesticides, herbicides, and fertilizers and avoid the use of these chemicals before it rains.
- Per City Code: Keep irrigation water on your landscape, not the street.
- Per City Code: Only drain or backwash your pool water into the sanitary sewer, not the street.
- Schedule a household hazardous waste disposal pick-up with the Glendale Solid Waste Division at 623-930-2660. Never pour chemicals down the storm drain!

For more information, visit [www.glendaleaz.com/environmentalprotection](http://www.glendaleaz.com/environmentalprotection).

26	27 Bulk Trash Section 4	28	29	30	1	2
3	4	5	6	7	8	9

## Did You Know?

In Glendale, stormwater runoff does not go to a water treatment plant before it is released back into the environment. It is transported by streets and storm drains directly to retention basins and washes. Retention basins are designed to retain standing water for several days, sometimes longer during an active monsoon. Never enter a retention basin when it has standing water.

## Floodplain Insurance – Risk Rating 2.0 Equity in Action

It has been 50 years since the Federal Emergency Management Agency, (FEMA) has updated the way they assess flood policy pricing for those needing to purchase flood insurance; in Glendale, that is less than 20 properties. FEMA is updating the National Flood Insurance Program's (NFIP) risk rating methodology with a new pricing methodology called "Risk Rating 2.0."

This methodology leverages industry best practices and cutting-edge technology to enable FEMA to deliver rates that better reflect a property's flood risk. For questions about the new program and flood insurance pricing, talk to any insurance agent that is a flood risk insurance professional. If you need help finding a provider, visit [www.FloodSmart.gov/flood-insurance-provider](http://www.FloodSmart.gov/flood-insurance-provider) or call the NFIP at 877-336-2627.

[www.glendaleone.com](http://www.glendaleone.com)

## National Park & Recreation Month

The National Recreation and Park Association (NRPA) designated July as America's official Park and Recreation month in 1985. Park and Recreation Month specifically highlights the vital role local park and recreation professionals play in the programming of conservation, health and well-being, and social equity in communities across the country.

This month is the perfect time to explore, enjoy, and celebrate our local area parks and recreational centers. For more information, visit [www.glendaleaz.com/parksandrec](http://www.glendaleaz.com/parksandrec).

## Do Your Part to Help Reduce Air Pollution

Ground-level ozone is a big concern in the summer months when emissions from vehicles and activities that use gasoline, paints, solvents, and other chemicals react in sunlight and heat to create ozone. Make a commitment to drive less, fuel your vehicle after dark, and handle and store chemicals properly to help reduce ground-level ozone. For more information, visit [www.CleanAirMakeMore.com](http://www.CleanAirMakeMore.com).

## Soak up the Rain

**Pro Tip:** If you receive at least 1/2" of rainfall, you can skip your next irrigation cycle. Simply use the off, stop, or rain setting on your controller to pause the watering cycle without disturbing your programs. Take it a step further by adding rainwater harvesting features to your landscape. Create wide and shallow depressions where water can be soaked up by plants or collect it in a rain barrel. For more information, visit <https://bit.ly/WUIWRainHarvesting>.

## Landscape Help for Businesses and HOAs

Landscape maintenance is often a large expense for businesses and HOAs. The city's Conservation and Sustainable Living Division has free programs to help customers identify ways to save money and improve water efficiency.

**Landscape Water Budget Program –** Receive a free landscape consultation and customized water budget that provides monthly watering targets based on landscape type and size.

**Landscape Rebate Program –** Receive a rebate for participating in the landscape water budget and converting non-functional grass to an Arizona-friendly landscape (bare soil and artificial grass do not qualify). The rebate includes \$1,500 for completing the landscape water budget and \$150 per 1,000 sq. ft. of grass converted to xeriscape.

**NEW! Landscape Irrigation Technology Grant –** Receive an incentive for upgrading your irrigation system to improve water efficiency. Eligible upgrades include smart irrigation controllers, weather sensors for manual controllers, flow sensors for leak detection, pressure regulating sprinkler heads, and installation costs to work with a qualified professional. Participants must install systems by July 2023 to qualify for available grant funds. For more information, call 623-930-3596 or visit [www.glendaleaz.com/waterconservation](http://www.glendaleaz.com/waterconservation).

[www.glendaleone.com](http://www.glendaleone.com)

## Sustainability On-Demand

The City has a collection of sustainability videos ranging from water-wise landscapes to energy efficiency. Videos include recorded Green Living classes taught by local experts, virtual tours, and more. Access these free resources on-demand anytime, anywhere. To view, visit <https://bit.ly/GlendaleGreenVids>.

## Cash for Removing Grass

Glendale water customers can receive a rebate for converting their water-thirsty grass lawns into desert-friendly landscapes. Save time, water, energy and money by making the switch to a water-wise landscape. Follow these simple steps.

- 1. Get free “how-to” information.** Receive free publications on how to successfully convert grass to a water-smart landscape by calling 623-930-3760 or visiting [www.glendaleaz.com/waterconservation](http://www.glendaleaz.com/waterconservation).
- 2. Request a free consultation.** Glendale Water Services Department – Conservation & Sustainable Living staff provide free landscape consultations to Glendale water customers. We offer advice to help you install and maintain a sustainable landscape.
- 3. Learn about the landscape requirements.** Single-family customers must remove at least 500 square feet of grass. Businesses, HOAs, and multi-family customers must remove at least 1,000 square feet of grass and participate in the Landscape Water Budget Program. The converted area must be landscaped with Arizona-friendly plants (bare soil and artificial grass do not qualify).
- 4. Call 623-930-3760 to schedule a landscape inspection.** After the inspection, landscapes that meet the criteria will receive a rebate dependent on the amount of grass converted.

## GRASS CONVERSION

Rebate Amount	Grass Removed 
\$150	500-1500 ft. <sup>2</sup>
\$300	1501-2500 ft. <sup>2</sup>
\$450	2501-3500 ft. <sup>2</sup>
\$600	3501-4500 ft. <sup>2</sup>
\$750	+ 4501 ft. <sup>2</sup>

## New City Codes

The Glendale City Council in 2021 passed new regulations. It is a violation to park any vehicle, trailer, or recreational vehicle on a landscaped area in the front yard and all parking and maneuvering must be on a dustproof surface such as concrete, pavers, asphalt, or crushed aggregate that is 3” thick. Be a good neighbor and don’t park on the landscaped areas.

Please don’t feed the pigeons. Pigeon feeding on public property within the city of Glendale is against city code. Pigeons spread disease and mites, dirty our public spaces, displace native birds, and leftover food attracts rats. For more information, visit [www.glendaleaz.com/codecompliance](http://www.glendaleaz.com/codecompliance) or call 623-930-3610.

Thunderbird Conservation Park

## Discovery & Exploration Backpacks

The Glendale Public Libraries are now offering a collection of themed Discovery and Exploration Backpacks\* for families and patrons of all ages! These backpacks feature a variety of books, hiking resources and tools, including trail guides, binoculars, flashlights, telescopes, bug magnifying viewers and more. These can be used to explore the great outdoors at any of Arizona's many parks and recreational sites or even in your own backyard. For a limited time, each backpack will include a free Arizona State Parks Pass!

*\*This project is supported by the Arizona State Library, Archives & Public Records, a division of the Secretary of State, with federal funds from the Institute of Museum and Library Services. For more information, visit [www.glendaleazlibrary.com](http://www.glendaleazlibrary.com).*

## National Library Card Sign-Up Month

September is National Library Card Sign-Up Month. Your Glendale Public Library card gives you direct access to shared physical and electronic resources, from books to movies to computers, streaming services, virtual programming, and student resources; all while helping you save money and the planet. For more information, visit [www.glendaleazlibrary.com](http://www.glendaleazlibrary.com).

## Start Your Seed Collection

Grow your garden with free seeds! The Glendale Seed Library is available at all four library locations. Seeds are sourced from Native Seeds/SEARCH and provided by the Glendale Water Services Department – Conservation & Sustainable Living Division. For more information, visit [www.glendaleazlibrary.com](http://www.glendaleazlibrary.com).

## Don't Rush to Flush

*Don't flush unwanted medications down the toilet or sink.*

**Option 1** – Keep medication in its container (mark out personal information) and place it into a MedReturn Drug Collection Unit\* at the following Glendale police stations:

**Foothills Station - 6255 W. Union Hills Dr.**

**Gateway Station - 6261 N. 83rd Ave.**

*\*Does not accept liquid medications, syringes or inhalers.*

**Option 2** – Put medication into a sealable bag or container and mix with an undesirable substance (such as kitty litter or used coffee grounds). Dispose of it in the trash. Keep away from children and pets.

**Option 3** – Contact your pharmacy to see if they collect unused medications.

## Household Hazardous Waste Appointments!

**Call between September 19 & October 14**

Collections run from October 10 to October 28. Check your shed and garage for unwanted hazardous items. Place items in a box marked "HHW" with everything clearly labeled in the original container. Schedule appointments at 623-930-2660. For more information, visit [www.glendaleaz.com/householdhazardouswaste](http://www.glendaleaz.com/householdhazardouswaste).

[www.glendaleone.com](http://www.glendaleone.com)

Dedicated bike lane along a collector street in Glendale

## Transit Services

Transit provides a wide range of convenient, low-cost transportation alternatives for Glendale citizens and visitors, including fixed-route bus service, Glendale Dial-A-Ride, Glendale Urban Shuttle (GUS) bus service, ADA service and a taxi voucher program. For information about these services call 623-930-2940. For Valley-wide fixed route bus schedules and information on transit education programs, visit [www.glendaleaz.com/transportation](http://www.glendaleaz.com/transportation).

## Cold In-Place Recycling (CIR)

CIR is a reconstruction process that combines the existing street asphalt material with recycling agents to create a reclaimed or reusable asphalt that is placed back onto the street to create like-new conditions. This is done without the addition of heat; hence the name “cold in-place.” This results in cost savings and lowers traffic impacts as compared to traditional street reconstruction. This process saves money and is environmentally-friendly by reducing mining operations, material transports, energy needs of hot mix asphalt, usage of petroleum products, and duration of construction noise. The CIR use is limited to streets where the existing underlying foundation is adequate.

## Valley Metro 101

Attend a Valley Metro 101 class to learn how Valley Metro Buses, GUS, Dial-A-Ride and Light Rail can take you around the Valley. Valley Metro and the city of Glendale are committed to helping you learn the transit system. Visit [www.glendaleaz.com/transportation](http://www.glendaleaz.com/transportation) for upcoming sessions.

## Adaptive Signal Control Technology (ASCT)

ASCT adjusts traffic signal timing to accommodate changing traffic patterns to alleviate congestion and improve safety. ASCT is currently being used on Bell Rd from 71st Ave to Loop 101. This pilot project is a partnership between six Valley agencies. A study conducted with data from before and after the implementation project confirms the benefits of the ASCT project. Delays have been reduced 51% on weekdays and 7% on weekends. This results in a reduction of vehicular emissions and savings in fuel consumption. Three additional ASCT projects are planned that are partially or fully in Glendale. The projects are Bell Rd from 69th Ave to 53rd Ave, Olive Ave from 67th Ave to 47th Ave, and the Glendale sports and entertainment district area.

## National Teen Driver Safety Week

October 14-20, 2022 is National Teen Driver Safety Week. Motor vehicle crashes are the leading cause of death for teens (15-18 years old) in the United States. Distracted driving is one of the fastest-growing safety issues on the roads today. To address this concern, the city of Glendale is partnering with the National Safety Council for young drivers. The City plans to educate new or soon-to-be drivers in driver safety using the Alive at 25 training in high schools that would like to partner with the City.

Veteran's Memorial at the Main Library

**Follow good waste disposal practices to prevent clogged pipes from disrupting your holiday plans.**

## Cease the Grease

Fats, oils, and grease (FOG) poured down your kitchen drain can solidify in your pipes and cause sewage to back up into your home, lawn, streets, and storm drains. FOG will eventually cool and harden in the pipe, which can lead to blockages.

**Help prevent sewer blockages by following these best practices:**

- Don't pour FOG down sinks, drains or toilets.
- Pour used grease into a sealable container and discard it in the trash.
- Scrape food residue from dishes and cookware into the trash before washing.
- Put a strainer over the drain to catch food scraps and discard them in the trash.

## Think Before You Flush

Your toilet and sink are not trashcans. Wipes, cotton balls, swabs, dental floss, wrappers, feminine hygiene products, and kitty litter all stick to the walls of underground pipes. These items do not dissolve and combine with FOG in the sewers to cause blockages.

Toilet paper is the only flushable product because it dissolves in water. There is no such thing as a "flushable wipe." When cleaning wipes, facial wipes, and baby wipes are flushed, they can cause blockages, leading to sewer overflows. Help keep your pipes and the City's sanitary sewer system clear of debris by disposing of items in the trash.

**Never put these items in the toilet or drain:**

- Wipes – even if advertised as "flushable"
- Paper towels and napkins
- Personal hygiene products
- Diapers
- Needles should be disposed of in a medical sharps container or a puncture-proof container with a tight-fitting lid.

For more information, visit [www.glendaleaz.com/environmentalprotection](http://www.glendaleaz.com/environmentalprotection).

## Glendale Collects Cell Phones for America Recycles Day

Time to clean out the drawers for those old cell phones! In celebration of America Recycles Day on November 15, Glendale has developed a special cell phone recycling program throughout November. The public is encouraged to drop off old cell phones at Gila River Arena at Gate 3 on the northwest corner of the building, Glendale Community College or at any of Glendale's public libraries. The cell phones will go to the Glendale Family Advocacy Center to be refurbished and will become available for victims of stalking and domestic violence. Statistics show that cell phones are replaced after only 18 months of use. It is important to keep cell phones out of landfills. Drop off locations could change, so for updated information, visit [www.glendaleaz.com](http://www.glendaleaz.com) or call 623-930-2660.

## 'Tis the Season to Treecycle

December 26 through January 8

The Solid Waste Department has established several sites throughout Glendale where residents can drop off trees for recycling: (Single, unbagged tree, with no decorations, tree stands, metal stakes or nails.)

**Acoma Park** • 53rd Ave. & Acoma Rd.

**Fire Station No. 156** • 67th Ave. & Deer Valley Rd.

**Heroes Library** • 83rd Ave. & Bethany Home Rd.

**Foothills Park** • 57th Ave. & Union Hills

**Sahuaro Ranch Park** • Southeast corner of 63rd Ave. & Mountain View Rd.

**O'Neil Park** • 64th Ave. & Missouri Ave.

**Rose Lane Park** • 51st Ave. and Marlette Ave.

For more information on treecycling, call 623-930-2660.

## From the Heart

From the Heart (FTH) is a unique partnership of Glendale residents, the city of Glendale and local community agencies. FTH puts your donation to work every day to make life better for countless Glendale residents. Whether serving meals to the elderly, giving emergency help to homeless families, or supporting abused children, FTH gives to non-profit agencies that provide services to our community. Since FTH began in 1997, more than \$2.5 million has been raised and distributed to non-profit agencies serving Glendale residents. Donate today! For more information, visit <https://bit.ly/GlendaleAZFTH>.

## Burn Cleaner, Burn Better

Keep our air clean and our neighbors healthy; don't burn wood on a No Burn Day! Convert your wood-burning fireplace to natural gas or electric, or switch to other cleaner-burning alternatives. Relax by the glow of a warm fire while reducing harmful smoke pollution. To find out the latest air quality forecast and No Burn Day status, download the Clean Air Mobile App, visit [CleanAirMakeMore.com](http://CleanAirMakeMore.com) each day, or call 602-506-6400.

## Lower Your Sewer Fee

Did you know that your water use billed in January, February, and March is used to calculate your annual sewer fee? Starting in December, reduce your water use during these winter months to lower your sewer charge.

**Follow these easy tips to lower your monthly water bill:**

- Fix leaky toilets, faucets and showerheads.
- Fix irrigation and pool leaks.
- Adjust your irrigation schedule monthly.

If you have a leak or fill your pool during the sewer average period, you can appeal your sewer charge. For more information, visit [www.glendaleaz.com/watersewertrashbilling](http://www.glendaleaz.com/watersewertrashbilling).

[www.glendaleone.com](http://www.glendaleone.com)
