ONE WOMAN AND FOUR DOGS DIE IN AN RV FIRE

GLENDALE, Ariz.- One woman and four dogs were found in an RV after a fire broke out yesterday evening. Around 6pm last night a call rang out for a fire in an RV parked up against a home. When fire crews arrived, they found heavy smoke and flames from the front of the RV that were extending into the residence. Crews were able to make a quick stop on the fire and kept it from extending into the home. They extinguished the RV and then made a search of the inside. When they made their way in they found Lori Campbell a 53-year-old woman.

Lori and her partner had been living in the RV while they were remodeling their home. Lori's partner was out of town at the time of the fire. Crews quickly pulled the woman from the RV and began performing life saving measures. She was transported to the hospital where she was later pronounced dead. Crews also located four dogs. Two of the dogs were pulled outside but it was too late to resuscitate them.

The cause of the fire remains under investigation and will continue to be for quite some time. There is no initial cause to believe there was anything suspicious surrounding the circumstances. The body of Lori Campbell is with the coroner's office as we will await autopsy results. Our hearts go out to the Lori and her family.
