Update – Glendale Toddler Passes Away Over Weekend

GLENDALE, Ariz. – On Sunday December 11, 2011 at about 10:30 am Glendale Officers responded to a residence near 59th and Bethany Home Rd on the report of a baby not breathing. The 15 month old girl was found her mother’s fiancée in her bedroom unresponsive after being put down for a nap. The child’s care-giver ran to a neighboring residence with the little girl, where life-saving efforts were performed and a 911 call was placed. When Officers arrived, life-saving efforts were underway. The child was transported to a valley hospital, but sadly, she passed away.

As per standard protocol in situations like this, Investigators responded to the scene. An MEO examination is also standard procedure. Glendale Victim Assistance personnel were called to the scene for family support.
