Glendale Police Will Use *OffenderWatch*®

GLENDALE, Ariz. – The Glendale Police Department is pleased to announce the use of *OffenderWatch*®, one of the nation's leading registered sex offender management and community notification tool. The Glendale Police Department believes the shift to *OffenderWatch*® will help to ensure that the public receives the latest information within their neighborhoods.

Offenders move frequently, so instead of continually checking maps, the community can stay informed through the free email alert system.

OffenderWatch® is updated throughout the day as offender addresses and other offender information are updated. Residents may confidentially register as many addresses in the county they wish. *OffenderWatch*® will send an email alert if a new offender registers an address within one mile of any address registered. There is no cost for this service and no limit to the number of addresses that can be registered. The personal information on those who chose to use *OffenderWatch*® is all confidential.

Law enforcement agencies around the country utilize *OffenderWatch*® to manage and monitor the whereabouts and compliance status of the registered sex offenders. Please feel free to visit the following hyperlinks which provide valuable information on how to use *OffenderWatch*®
